

PANEL FABRICATION SERVICES

Gettle Incorporated presently serves over 100 businesses throughout the Mid-Atlantic region.

NATIONAL LIME & STONE **Delaware, OH**

Gettle Incorporated provided this electrical panel for National Lime & Stone's Delaware, OH plant. An Allen Bradley Programmable Logic Controller (PLC) 5 processor was used as a controller. All outputs to the field devices were provided with separate fusing. A Nema 12-enclosure was used because of the dusty atmosphere.
