

POLE/LINE CONSTRUCTION

Gettle Incorporated presently serves over 100 businesses throughout the Mid-Atlantic region.

LEADERS HEIGHTS/I-83 MET-ED York, PA

Gettle Incorporated relocated 38 poles, installed and retired 9000' of new overhead conductors, installed group operated switches, installed various banks of one-phase and three-phase transformers. Due to widening of I-83, Gettle installed 2000' of underground primary cable. During this conversion, travelers remained able to easily utilize the highway.
